### Suggestions for Centerpiece Give Away

If you are planning on giving the centerpieces away, there are certain games that we suggest that can be fixed ahead of time: Characteristics, Early Bird Catches the Worm and Twist the Night Away. It's a great idea to keep the boxes that the centerpieces were delivered in for transportation later.

#### 1. CHARACTERISTICS

Under each centerpiece put a piece of paper with different descriptions of people on them, such as: shortest person, longest legs, woman wearing the most makeup, oldest person, drunkest person, etc... Have someone at the table look at the piece of paper and whomever closest matches the characteristic receives the centerpiece.

#### 2. CLOSEST BIRTHDAY

The person with the closest birthday to the wedding date

#### 3. EARLY BIRD CATCHES THE WORM

Give the centerpieces to the first person that sent their response card back from each table.

#### 4. HIDE 'N' SEEK

Put a piece of paper with word "winner" written on it under one plate at each table. Be sure to have the centerpiece game before the dinner plates are removed. Or put a sticker under one chair at each table.

- After you place that one item at each table, be sure to tip or turn a chair backwards. That way you'll know which tables are already done. This is something you might want to talk over with your reception hall to see if they can provide help on the placement of the paper. You would need to provide the papers.
